# THE EXCENTR METHOD

## The most effective way of floor cleaning and floor maintenance

The Excentr Method is linked with the revolutionary Excentr machines. It is a highly effective way of floor cleaning and floor maintenance. Our machinery is designed in such a way (e.g. square) that the corners are easily reached.

The pads make 2850 rounds of 7 mm per minute. This makes the mechanical operation unrivalled. In contrast to, for example, rotating single-disc machines, the pad always makes completely flat contact with the floor surface. As a result, these machines are very constant in their cleaning performance and effortless to operate. It is really easy and relaxed to work with the Excentr machines. To guarantee fast and perfect results on almost every floor, the pressure on the pad is adjustable between 17 to 120 kg (depending on the type of machine and number of weights). There are many different pads and accessories to achieve maximum results on every surface.

**Benefit 1: Four times faster**

**Benefit 2: A unique design**

**Benefit 3: Ergonomic and user-friendly**

**Benefit 4: Environmentally friendly**

**Benefit 5: Deep cleaning**

### Excentr 55-35

The Excentr 55-35 is the showpiece of Excentr, stainless steel, solid and 2850 movements per minute. The perfect balance and the adjustable handle make working with this machine simple and ergonomic.

55 cm x 35 cm | 39 kg - 110 kg (59g/cm2) | 64 dB | 2850 x 7 mm p/m | 230 V/50Hz - 110 V/60Hz | 1.1 kW | IPX 54

SCAN FOR MORE INFORMATION

### Excentr 43

The Excentr 43 combines the Eccentric motion with a rotary motion as a single-disc machine does. This combination of movements, also called an orbital movement, is very effective on both hard and soft floors.

43 cm - 17" inch | 38 kg - 80 kg (56g/cm2) | 60 dB | 1400 Rpm x 21mm p/m | 230 V/50Hz - 110 V/60Hz | 0.75 kW | IPX 54

SCAN FOR MORE INFORMATION

### Excentr 40-25

With a 43 cm wide scrub deck, the Excentr 40-25 is the alternative to the single-disc machine. Ideal for cleaning, deep cleaning, stripping and light renovation of small to medium-sized surfaces!

43 cm x 25 cm | 25 kg - 45 kg (42g/cm2) | 60 dB | 2850 x 7 mm p/m | 230 V/50Hz - 110 V/60Hz | 0.55 kW | IPX 54

### Excentr solution tank 12L

Dose and distribute your water perfectly with the 12 liter Solution Tank. This tank is easy to mount without tools.

### Excentr solution tank 3L

The compact tank has a capacity of 3 litres, and a convenient filling hose for easy filling of the Excentr Solution tank.

### Excentr xl tool

Want to work at 110 or 165 cm width? The Excentr XL Tool makes it possible! Connect machines together and experience the ease and speed.

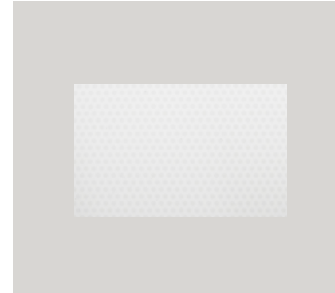

### Excentr Fiber Pad

Specially developed for deep cleaning on uneven surfaces, textured floors, safety non-slip floors, joints, etc.

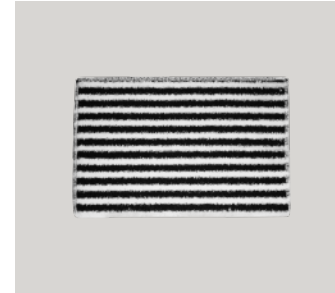

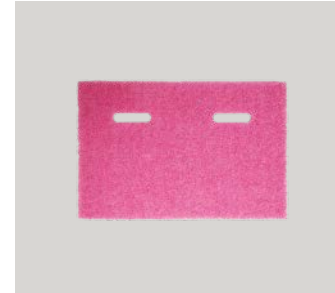

### Excentr Magic Pad

This melamine pad is very suitable for thorough cleaning of many types of floors. The problem solver for removing dirt from microporous surfaces.

### Excentr Pink Pad

Ideal for even and flat floors. Despite its cleaning power, it is not too sharp for sensitive surfaces.

### Excentr weight

To create extra pad pressure on your Excentr machine is the Excentr Weight (2 weights of 12 kg) the right solution.

### Excentr Battery Pack

The lithium-ion pack, is good for +- 30 minutes (up to 45 minutes) fully autonomous work. 3 Excentr Battery Packs are all you need to work 24/7!

### Excentr splash & dust guard

Use the Excentr Splash & Dust Guard when you want to work with a lot of water or dry. The Guard protects you against splashing water and dust.

### Excentr Strip Alu Pad

The thousands of sharp aluminium oxide particles grind the polymer off the linoleum in a controlled manner and without damage (when used correctly).

### Excentr Extreme Pad

Made for the toughest stripping, cleaning and prep work. The hard open fibre ensures a perfect drainage of the dirt, keeping your pad clean and sharp.

### Excentr Hard Micro Pad

A highly effective microfibre pad with scrub strips incorporated. You can therefore scrub and absorb dirt at the same time. Ideal for use on wood and laminate.

## EXCENTR ACADEMY

We proudly offer the Excentr Academy to anyone who is eager to enhance their cleaning skills and deepen their understanding of floor maintenance.

Our comprehensive training sessions teach you how to use Excentr's innovative machines and eco-friendly products, helping you clean more effectively and sustainably. Whether you're new to the field or already have experience, the Excentr Academy caters to all skill levels, providing practical techniques, tips, and hands-on experience. It's the perfect opportunity for anyone looking to refine their expertise, boost efficiency, and stay ahead in the industry.

You can easily sign up for the Excentr Academy through our website at [www.excentr.com](http://www.excentr.com). Visit our site to explore available training sessions and secure your spot in the program. Don't miss the chance to improve your skills and learn from the experts!

## ABOUT US

Excentr is a young Dutch manufacturer of innovative cleaning machines. Since the beginning of 2015 we are active worldwide and we tell professionals about the Excentr Method to, mainly in the cleaning industry. We develop machines with a focus on durability, solidity and efficiency. In our machines you will only find quality parts.

Our machines are therefore largely made of stainless steel. We produce our machines with the greatest care and are convinced that they are "extremely solid". We always give at least 12 months warranty and even a lifetime warranty on our machines with a service contract.

The origin of Excentr lies with Niek Besuijen and Rinaldo Meeuwse. Rinaldo is responsible for the development and production of the Excentr machines. Niek takes care of the commercial activities. Excentr produces the Excentr machines and accessories in Heinkenszand, the Netherlands.
